

SOLID WASTE FACILITY PERMIT

1. Facility/Permit Number:

SWIS # 41-AA-0008

2. Name and Street Address of Facility:
HILLSIDE CLASS III DISPOSAL SITE
ONE SANDHILL ROAD
COLMA, CALIFORNIA 940143. Name and Mailing Address of Operator:
CYPRESS-AMLOC LAND COMPANY, INC.
1500 HILLSIDE BOULEVARD
COLMA, CALIFORNIA 940144. Name and Mailing Address of Owner:
CYPRESS-AMLOC LAND COMPANY, INC.
1500 HILLSIDE BOULEVARD
COLMA, CALIFORNIA

5. Specifications:

a. Permitted Operations:

☐ Composting Facility
(mixed wastes)☐ Composting Facility
(yard waste)☐ Processing Facility☐ Transfer Station☒ Landfill Disposal Site☐ Transformation Facility☐ Material Recovery Facility☐ Other: _____

b. Permitted Hours of Operation:

Landfill operating hours are 6:30 am - 5:30 pm daily

Receipt of refuse hours are 7 am - 5 pm daily

c. Permitted Tons per Operating Day:

Total: Maximum 400 (average 250) Tons/Day

Non-Hazardous - General

NA Tons/Day

Non-Hazardous - Sludge

NA Tons/Day

Non-Hazardous - Separated or comingled recyclables

NA Tons/Day

Non-Hazardous - Other (See Section 14 of Permit)

NA Tons/Day

Designated (See Section 14 of Permit)

NA Tons/Day

Hazardous (See Section 14 of Permit)

NA Tons/Day

d. Permitted Traffic Volume:

Total: 400 Vehicles/Day

Incoming waste materials

400 Vehicles/Day

Outgoing waste materials (for disposal)

NA Vehicles/Day

Outgoing materials from material recovery operations

NA Vehicles/Day

e. Key Design Parameters (Detailed parameters are shown on site plans bearing LEA and CIWMB validations):

	Total	Disposal	Transfer	MRF	Composting	Transformation
Permitted Area (in acres)	42.8 a	30.1 a	NA a	NA a	NA a	NA a
Design Capacity		2,310,000 cy	NA tpd	NA tpd	NA tpd	NA tpd
Max. Elevation (Ft. MSL)		547+ ft				
Max. Depth (Ft. BGS)		45+ ft				
Estimated Closure Date		1999				

This permit is granted only to the operator named above, and is not transferable. Upon a change of operator, this permit is no longer valid. Further, upon a significant change in design or operation from that described herein, this permit is subject to a revocation or suspension. The attached permit findings and conditions are integral parts of this permit and supercede the conditions of any previously issued solid waste facility permits.

6. Approval:

Approving Officer Signature

Brian Zamora, Director of Environmental Health
Name/Title

7. Enforcement Agency Name and Address:

County of San Mateo
Environmental Health Services
590 Hamilton Street
Redwood City, CA 94063

8. Received by CIWMB:

NOV 13 1995

9. CIWMB Concurrence Date:

NOV 21 1995

10. Permit Review Due Date:

NOV 28 2000

11. Permit Issued Date:

NOV 28 1995

SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

SWIS# 41-AA-008

12. Legal Description of Facility (attach map with RFI): See drawing 7 in the amended RDSI.

13. Findings:

- a. This permit is consistent with the County Solid Waste Management Plan dated December, 1989. Public Resources Code, Section 50000.
- b. This permit is consistent with standards adopted by the California Integrated Waste Management Board (CIWMB). Public Resources Code, Section 44010.
- c. The design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handling and Disposal as determined by the LEA.
- d. The Colma City Fire Department has determined that the facility is in conformance with applicable fire standards as required in Public Resources Code, Section 44151.
- e. An environmental determination (i.e. Notice of Determination) is filed with the State Clearinghouse for all facilities which are not exempt from CEQA and documents pursuant to Public Resources Code, Section 21081.6. A Categorical Exemption was filed on June 19, 1995.
- f. A County-wide Integrated Waste Management Plan has not been approved by the CIWMB.
- g. The following authorized agent has made a determination that the facility is consistent with, and designated in, the applicable general plan: San Mateo County. Public Resources Code, Section 50000.5(a).
- h. The following local governing body has made a written finding that surrounding land use is compatible with the facility operation, as required in Public Resources Code, Section 50000.5(b). San Mateo County

14. Prohibitions:

The permittee is prohibited from accepting any liquid waste sludge, non-hazardous waste requiring special handling, designated waste, or hazardous waste unless such waste is specifically listed below, and unless the acceptance of such waste is authorized by all applicable permits.

1. Used motor oil EPA Hazardous Waste Generator ID# CAD 9806957612. Dry residential and commercial waste including greenwaste, wood, construction demolition, white goods and tires.

The permittee is additionally prohibited from the following items:

1. Scavenging and open burning.2. Accepting garbage.3. Accepting hazardous waste (except used motor oil), sewage sludge, liquid waste, food waste, infectious waste, flammable waste, manure and dead animals.4. Excavation of old refuse for cover material.

SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

SWIS# 41-AA-008

16. Self Monitoring:

a. Results of all self-monitoring programs as described in the Report of Facility Information, will be reported as follows:

Program	Reporting Frequency	Agency Reported To
1. This facility shall furnish a report indicating the total tonnage of waste handled at the disposal facility per month along with the number of operating days for that month. A copy of the engineering inspection report(s) shall be submitted to the LEA. In addition, when applicable, the monthly report shall provide a breakdown of the quantities (tonnage) of waste received from each solid waste transfer station and each franchised solid waste collector/hauler by name.	Quarterly Basis	LEA
2. This facility shall report any special occurrences, activity or natural disaster occurring in the waste management unit and any failure which threatens the integrity of the containment features or the landfill shall be promptly corrected upon approval of the method and schedule for repair.	Within 24 Hours of Incident	LEA
3. Results of hazardous waste screening program.	Quarterly Basis	LEA
4. Log of special occurrences.	Within 24 Hour of Incident	LEA
5. This facility shall furnish a report regarding the synthetic blanket alternate daily cover for rips, tears, and overall condition. The report will also state the number of days the blankets were not utilized due to adverse conditions.	Quarterly Basis	LEA

SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

SWIS# 41-AA-008

17. LEA Conditions:

Requirements:

1. The design and operation of this facility must comply with all of the State Minimum Standards for Solid Waste Handling and Disposal.
2. The design and operation of this facility must comply with all federal, State and local requirements and enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

Specifications:

1. This facility has daily permitted capacity of 400 tons per day and shall not receive more than 400 tons per day without a revision of the permit.
2. No changes in design or operation of this facility, except as authorized by this permit, are anticipated in the next five (5) years.
3. Unless the Hillside Landfill can obtain operation extensions to the Fish and Wildlife Service and County Use Permits, this facility must cease Landfill operations by 1999.

Provisions:

1. The following provisions must be met for the landfill operation:
 - A. All wastes shall be deposited at the toe of the fill to facilitate maximum compaction. The wastes shall be spread and compacted in layers with a minimum of three (3) repeated passages of equipment so as to eliminate voids within the cell. The loose layer shall not exceed a depth of approximately two (2) feet before compaction. The slope of the working face shall be maintained at a ratio which will allow effective compaction of the wastes.
 - B. The use of a synthetic blanket as an alternative daily cover (ADC) may be used as a daily cover. The following condition must be met regarding the ADC operation.
 - 1) The working face must be kept at a minimal size to allow for maximum coverage of the tarps.
 - 2) An aggressive litter control program must be maintained during operating hours.
 - 3) Soil cover must be used in the event of very high wind conditions.
 - 4) The working face must be covered with six (6) inches of soil once a week and shall be placed daily over top and side surfaces of compacted waste. The LEA reserves the right to require the working face to be covered with six (6) inches of soil any time if it is determined to create a public nuisance or if any of the conditions in this order are not met.
 - C. The operator shall exclude non-permitted types of wastes, i.e. garbage. Should this exclusion not be effectuated, reversion to daily cover shall be required.
 - D. Stockpiled cover material shall be maintained at close proximity to the working face for emergency use and to mitigate odor, vector or nuisance problems which may arise during operation. The quantity of stockpiled material shall be equivalent to the amount of cover material required to effectuate complete covering of the working face on two succeeding occasions.
 - E. All salvaged material shall be removed from the site daily or stored in a properly constructed rodent proof building.
2. The following provisions must be met for the wood grinding operation.
 - A. The type and method of operation shall not change from the described in the R.D.S.I.
 - B. The material shall not be stockpiled for more than two (2) consecutive weeks. The LEA reserves the right to have all stockpiled materials (unprocessed and processed) spread, compacted and covered immediately if it is determined to be a public nuisance.
 - C. The project shall not interfere with normal land filling operation.
 - D. The combined quantity of unprocessed material shall not exceed six hundred (600) cubic yards at any one time.

SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

SWIS# 41-AA-008

17. LEA Conditions:

Provisions Continued

3. The operator shall submit to the Board and LEA copies of final closure and post closure maintenance plans for the landfill. These plans shall be submitted no later than two years prior to the anticipated date of closure. Along with these plans, evidence is to be submitted of financial ability to provide for the cost of closure and 15 years of post closure maintenance. All documentation relating to the preparation of the closure and post closure maintenance costs shall be retained by the operator and shall be available for inspection by the LEA or the Board at reasonable times.
4. This permit is subject to review by the LEA, and may be suspended, revoked or modified at any time for sufficient cause.
